Fillibustering. Scarcely a week has passed, since the defeat of the Lopez expedition at Carderas, that we have not heard rumors of the fitting out of another party, having for its object the capture of Cuba. Newspapers and letter writers would tails, giving the names of the officers engaged, place of meeting, number of men and the time they were to leave the United Staros. WASHINGTON, July 9. It is understood that a large majority of the House of Representatives look with favor upon the bill reported by Dr. Gwin, of California, some months ago, and which passed the Senate this morning' to establish a line of mail steamships between San Francisco and Shanghai, via the Sandwich Islands and Japan; but it is very doubtful whether the bill can be reached and ! acted upon at this session. Dr. Gwin has been indefatigable in his exertions to procure the adoption of this measure, the importance of which, in a commercial, poitical, and religious point of view, cennot be over estimated.

WASHINGTON, July 8, P. M. Senate—The bill providing for the construct-tion of military roads in Washington and Nebraska Territories was reported and passed.

Twenty Senate and six House private bills were passed, and all others on the calender were postponed. Adjourned.

House .- The first motion in order was one to secensider the action of the House yesterday rejecting the general appropriation bill.

Mr. Orr said he was surprised at the rejection of the bill; he had no doubt it was produced by incorporating in the bill six or seven hundred thousand dollars for certain custom -houses. He was opposed to that amendment, but voted the bill owing to the pressing public necessities After consultation, he proposed the House should reconsider the vote rejecting the bill, and tha some one who voted for the custom-house ap propriatian should move to reconsider the vote on that, in order that it may be stricken out.

The vote adopting custom-house appropria tions was then reconsidered—yeas 84, mays 63 when the question recurred on agreeing to amend ment making an appropriation of \$340,000 for the completion of custom-houses at St Louis, Mobile, Cincinnati, Louisville, Bangor. and Wilmington, and for a site in Rhode Island. Preston justfied the amendment for the Western and other custom-houses, and alluded tria. to the fact that they were thrown out by committee of ways and means, while New Orleans and Charleston, because they were on the

Atlantic, were inserted by that committee He moved the previous question, under the operation of which the custom-house amendment was again agreed to by 67 majority, and the bill Czar Is this the old antipath; to England? passed yeas 92, nays 25;

AYER'S

FOR ALL THE PURPOSES OF A

# FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely regetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an

of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Agne, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief; in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurry, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the vate the strength of the body, and restore the wasted or diseased energies of the whole organism. though no serious derangement exists; but un-necessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any tring which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathertic medicine.

### AYER'S CHERRY PECTORAL,

For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

This remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of Colds, Coughs, Hoarseness, &c.; and for Children it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by— A. MUNSELL, Frankfort Ky.

Erysipelas Cared by the use of Dr. Guysott's Ez truct of Yellow Dock and Sarsaparilla:

Scott Township. Vandendere co., Indiana, July 4th, 1853.

J. D. Park—Dear Sir:—It is with great pleasure 1 rite about the very happy effects of your 'Dr. Guy, son's Extract of Yellow Dock and Sarsaparilla,' upon ny daughter, who has been suffering under that dread ful disease of Erysipelas, with which she was attacked in 1848, and she was attended by some of our most skillful physicians for over eight months perseveringly, without any beneficial effect whatever. She became reduc ed to a perfect skeleton. She had ulcers from her shoulder to her knees, which continually discharged offen sive matter. Her physicians pronounced her ease hope less, and beyond the reach of medicine. My neighbors and myself thought her dissolution near at hand. One of my neighbors insisted on my trying 'Dr. Guysott's Extract of Yellow Dock and Sarsaparilla,' as a last resort, for as, all of our physicians had given her up, there could eno detriment in it. I consented to do so more from restless desire te do something for my daughter while life lasted, than from any hope of her getting reief. So I commenced using the medicine according to rections, and to my great astonishment, she commencble to walk out. She used, in all, twelve bottles of Dr. Guysott's Extract of Yellow Dock and Sarsaparilla,' which restored her to perfect health, in Dec

I most earnestly recommend it to every person suffering under any similar disease.

TWENTY YEARS EXPERIENCE.

In the treatment of a class of disease bittherto neglected and imperfectly understood, has enabled Dr. KIN KELIN, (Author of a work on Self Preservation) to prove that nine tenths of the causes of nervous debility local and constitutional weakness, merical and physical suffering, are traceable to certain habits, forming the most secret yet deadly and fatal springs of domestic misery and premature mortality. TAKE PARTICULAR NOTICE.

TAKE PARTICULAR NOTICE.

There is an evil hebitsometimes indulged in by boys, in solitude, often growing up with them to manhood, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives vise to a series of protracted, Institious, and devastating affections. Pew of those who give way to this perial, toos practice are aware of the consequences, but if they and the nervous system shattered, but strange and unaccontainly regions, and vague tears in the mind. The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, irresolute, and engages in his sport with less energy han usual.

irresolute, and engages the before the practice has been usual.

If he emancipate himself before the practice has cone its worst; and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by tip early follies. These are considerations which should awaken the attention of those similarly situated.

MARRIAGE

Requires the fulfilment of several conditions, in order that it may be really the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness hased, and its truesource in every instance disclosed—in how many could it have the printing and instance disclosed—in how many could it have traced to physical disqualifications and their attendant disappointment! Apply them while it is yet time, in order to have your unstrung and relaxed organization rebraced, revivined and strengthened.

REMEMBER

He who places himself under Dr. KINKELIN'S treatment may religiously confide in his honor as a gentleman, and rely upon the assurance, that the secrets of Dr. K's patients wil never he disclosed.

Young man—let no false modesty deter you from making your case known to one who from education and respectability, can cartainly befriend you.

Too many think they will conceal the secret in their own hearts, and cure themselves. Alash how often is this a fatal delasion, and how many a promising young man, who might have been an ormanent to society, has faded from the earth.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the pest results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and ohnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine
